Who I Am

```
const abhayMishra = {
  title: "B.Tech Computer Science Student | Aspiring AI Engineer",
  stack: ["Python", "Machine Learning", "Generative AI"],
  launchedProjects: [
    "Movie Recommendation System (2026 model)",
    "Titanic Survival Analysis",
    "India vs Afghanistan Match Prediction",
    "Dog vs Cat Classifier"
  ],
  certifications: [], // none listed on profile
  status: "Focusing 🎯",
  openTo: ["Collaborating on ML/AI projects", "Learning Gen AI"]
};
```

Featured Projects

Movie Recommendation System (2026 Model)

Content/collaborative-filtering based movie recommender.

 [Readme Card](#)

Layer	Technology
Language	Python

[Code](#)

Titanic Survival Analysis

Survival prediction model built on the classic Titanic dataset.

 [Readme Card](#)

Layer	Technology
Language	Jupyter Notebook
